

FIELD & TRIAL TURKEY & RICE

DESCRIPTION

Skinner's Field & Trial Turkey and Rice is a complete dog food, specially developed and formulated to support active dogs who are regularly working at a moderate activity intensity and who might benefit from additional nutrients to support joint health. Skinner's Field & Trial Turkey and Rice has been carefully developed with a protein level of 21% and a fat level of 11% to support the energetic requirements of a range of active dogs, such as working gundogs, agility dogs and active pet dogs.

Skinner's Turkey and Rice also includes Joint Aid, a supplement that provides a range of nutrients to support joint health. Skinner's Field & Trial Turkey and Rice is an ideal dietary choice to support the day-to-day requirements of active dogs as well as providing additional nutrients that may help to support joint health and integrity.

PREPARATION & FEEDING

It can be fed straight from the bag or, if your dog prefers, moistened a few minutes before serving with a small amount of tepid water.

Please refer to our feeding guide for the amount most suitable for your dog.

Nutritional requirements of dogs can vary according to their activity level, gender, age and breed.
activity level, gender, age and breed.
