

# FIELD & TRIAL CRUNCHY

## DESCRIPTION

Skinner's Crunchy is a complete dog food, specially developed and formulated to support dogs who are regularly working at a moderate to high activity intensity. The formulation includes a protein level (26%) to support muscle integrity and development, combined with a fat level (12%) to ensure sustained performance ability. These factors along with a good level of digestible starch (34%), provides a diet to support animals needing fuelled for high activity levels of moderate duration, such as working gundogs (for example picking up dogs on driven shoots) or agility and flyball dogs.

## PREPARATION & FEEDING

It can be fed straight from the bag or, if your dog prefers, moistened a few minutes before serving with a small amount of tepid water.

Please refer to our feeding guide for the amount most suitable for your dog.

Nutritional requirements of dogs can vary according to their activity level, gender, age and breed.

## INGREDIENTS & ADDITIVES
